AES Corporation Introduces New Marketing Communications Manager

Peabody, MA (January, 2006) AES Corporation today announced the hiring of Deanne (Dee) Frazier as the Marketing Communications Manager to provide marketing support throughout its 5 divisions of operation. In this leadership role Dee is responsible for providing the organization the tools necessary to develop and maintain a marketing operation with the primary objective of generating sales leads for all divisions of the company. Toward that end, Dee will design and implement goal oriented, multi-faceted marketing programs to grow the business throughout the 5 divisions under the Corporate umbrella.

Before joining AES, Dee acquired over 10 years of marketing and sales experience in various industries serving as Marketing and Sales Manager for companies including Original Gourmet in Salem, NH, Management Ventures, Inc. in Cambridge, MA and Marine Optical in Easton, MA. In these roles her responsibilities included the establishment of corporate branding, management sales reports, quotas and commissions, establishing prominent web presence, establishing and managing all PR and tradeshow activities for worldwide sales teams. This all around marketing and production experience is exactly the fit that AES was looking for.

According to Mark Brandstein, Chief Operating Officer of AES Corporation, "We believe Dee's skills and experience are directly in line with the needs of the Marketing Communications Manager position and that she is a great fit within our organization." Please join all of us at AES-Corporation in welcoming Dee to our family and feel free to send her an email at dfrazier@aes-intellinet.com. She can also be reached by phone at 978-535-7310 ext. 115.

"I am looking forward to a long career with AES. I am very interested in learning as much as I can about this company and its products including the AES-*IntelliNet* long-range mesh radio alarm communications system and how I can get others as excited about it as I am. This is the opportunity I have been looking for as it will allow me to utilize everything I've learned as well as challenge me to grow in my career experience," said Ms. Frazier.

About AES:

Established in 1974, AES Corporation is the industry leader delivering high reliability wireless mesh networks to multiple industries including the fire alarm and burglary/intrusion market. Wireless mesh networking is an innovative technology for applications that need to communicate data over a large geographic area with a high level of reliability at a low cost of ownership. AES-*IntelliNet* network users in the Fire & Burglary/Intrusion Alarm industry have gained significant revenue, communications and cost advantages while meeting the high standards of reliability required. AES-*IntelliNet* systems are used in hundreds of thousands of locations in over 150 countries.
